

INDICATIONS :

- Chronic renal failure (CRF)
- Reduction of calcium oxalate urolith recurrence in cats with impaired renal function
- Hepatic encephalopathy
- Reduction of recurrence of urolithiasis requiring urine alkalinisation: urate and cystine uroliths

CONTRAINDICATIONS:

- Pregnancy, lactation, growth

FEEDING DURATION:

- Provides dietary support in chronic renal failure and should be fed for the cat's lifetime. Regular veterinary checks are advised.

- Phosphorus retention leads to the development of secondary hyperparathyroidism and progression of the renal failure. Limiting dietary phosphorus intake is an essential part of nutritional support.

- Increased uraemia may induce the formation of gastric and intestinal mucosal ulcers. The combination of zeolite and FOS helps protect the mucosa.

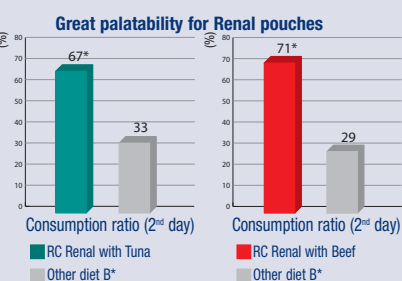

- A high fish oil content (source of EPA & DHA) helps to maintain glomerular filtration rate (GFR) and protect against glomerulosclerosis.

- The synergistic antioxidant complex (vitamin E, vitamin C, taurine, lutein) neutralises free radicals, helps maintain the health of DNA and cells and supports health of the immune system.

FURTHER INFORMATION:

Using renal diets with varied sources of animal proteins and markedly different aromatic profiles, like Renal with Chicken, with Beef and with Tuna, helps support spontaneous food intake of cats even with reduced appetite. Renal with Tuna and Renal with Beef diets have shown excellent palatability in trials.

B* is a feline renal competitor diet in pouch currently available on the market.
Source: Royal Canin Research Centre/PANELIS, palatability Panel, Nov 2007, n=37 & n=35.

KEY VALUES (per 100g dry matter)

	POUCH	
	With Tuna	With Beef
Protein:	32.4%	31.8%
Fat:	28.6%	27.7%
Carbohydrate:	20.5%	34.4%
NFE:	26.2%	27.7%
Dietary fibre:	14.3%	9.7%
Crude fibre:	8.6%	6.7%
Metabolisable energy*:	491 kcal	487 kcal
Omega-6:	9.5%	5.6%
Omega-3:	2.4%	2.6%
Calcium:	1.0%	1.1%
EPA & DHA:	2.1%	2.3%
Phosphorus:	0.4%	0.5%
Sodium:	0.4%	0.5%
Potassium:	0.9%	1.0%
Vitamin D:	135IU	141IU

*According to ATWATER's equation.

Synergistic antioxidant complex:

Vitamin E:	62mg	67mg
Vitamin C:	26mg	26mg
Taurine:	629mg	667mg
Lutein:	0.6mg	0.7mg

INGREDIENTS:

Tuna Pork and poultry meats, maize flour, tuna meat, sunflower oil, cellulose fibre, minerals (including zeolite), taurine, calcium carbonate, Fructo-Oligo-Saccharides (FOS), trace elements (including chelated trace elements), marigold extract (rich in lutein), vitamins.

Beef Pork and poultry meats, beef meat, corn flour, fish oil, cellulose fibre, sunflower oil, calcium carbonate, minerals (including zeolite), taurine, Fructo-Oligo-Saccharides (FOS), marigold extract (rich in lutein), trace elements (including chelated trace elements), vitamins.

Pouch with Tuna: 100g

Pouch with Beef: 100g

RECOMMENDED DAILY INTAKE:

Cat's weight (kg)	POUCH WITH TUNA						POUCH WITH BEEF
