

FELINE

### INDICATIONS:

- Chronic renal failure (CRF)
- Reduction of calcium oxalate urolith recurrence in cats with impaired renal function
- Hepatic encephalopathy
- Reduction of recurrence of urolithiasis requiring urine alkalinisation: urate and cystine uroliths

### CONTRAINDICATIONS:

- Pregnancy, lactation, growth

### FEEDING DURATION:

- Provides dietary support in chronic renal failure and should be fed for the cat's lifetime. Regular veterinary checks are advised.

- Enhanced palatability helps promote spontaneous food intake in cats with renal failure.

- Increase in glomerular pressure leads to a progressive decline in GFR. Supplementation with omega-3 long-chain fatty acids (esp. EPA & DHA) supports a lower glomerular pressure.

- Phosphorus retention leads to the development of secondary hyperparathyroidism and progression of the renal failure. Limiting dietary phosphorus intake is an essential part of nutritional support.

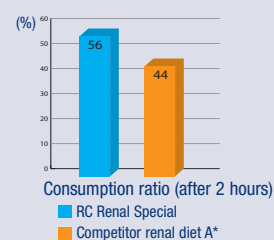

- Increased uraemia may induce the formation of gastric and intestinal mucosal ulcers. The combination of zeolite and FOS helps protect the mucosa.

### FURTHER INFORMATION:

Cats with renal failure often show reduced appetite and anorexia. RENAL SPECIAL features enhanced palatability to help ensure adequate caloric/and nutrient intake and promote better owners' compliance to nutritional prescription.

Palatability trial, RC Renal Special

A\* is a feline dry competitor diet currently available on the market.

### KEY VALUES:

Protein:	26%
Fat:	17%
Carbohydrate:	33.3%
NFE:	38.2%
Dietary fibre:	10.2%
Crude fibre:	5.3%
Minerals:	6.5%
Metabolisable energy (C)*:	4,098 kcal/kg
Metabolisable energy (M)**:	3,915 kcal/kg
Omega-6:	3.06%
Omega-3:	0.77%
EPA & DHA:	0.42%
Calcium:	0.86%
Phosphorus:	0.43%
Sodium:	0.35%

### Synergistic antioxidant complex:

Vitamin E:	500mg/kg
Vitamin C:	200mg/kg
Taurine:	2,100mg/kg
Lutein:	5mg/kg

\* According to ATWATER's equation

\*\* Energy measured by Royal Canin Research Centre

2 and 4kg bag

Actual size

### INGREDIENTS:

Maize flour, dehydrated pork protein\*\*\*, rice, animal fats, vegetable fibre, hydrolysed animal proteins, wheat gluten\*\*\*, maize gluten, minerals, beet pulp, calcium carbonate, fish oil, Fructo-Oligo-Saccharides (FOS), soya oil, DL-methionine, potassium citrate, taurine, L-arginine, L-tryptophan, marigold extract (rich in lutein).

\*\*\*LIP (Low Indigestible protein) : protein selected for its very high assimilation.

### RECOMMENDED DAILY INTAKE:

Cat's weight	thin		normal		overweight	
	grammes	cups	grammes	cups	grammes	cups
2kg	35	3/8	30	3/8		
3kg	55	5/8	40	4/8		
4kg	70	6/8	55	5/8		
5kg	90	1	70	6/8	55	5/8
6kg	105	1 1/8	85	7/8	70	6/8
7kg			100	1 1/8	80	7/8
8kg			110	1 2/8	90	1
9kg			125	1 3/8	105	1 1/8
10kg			140	1 4/8	115	1 2/8
